

Parents' Questionnaire 2018-19 Analysis

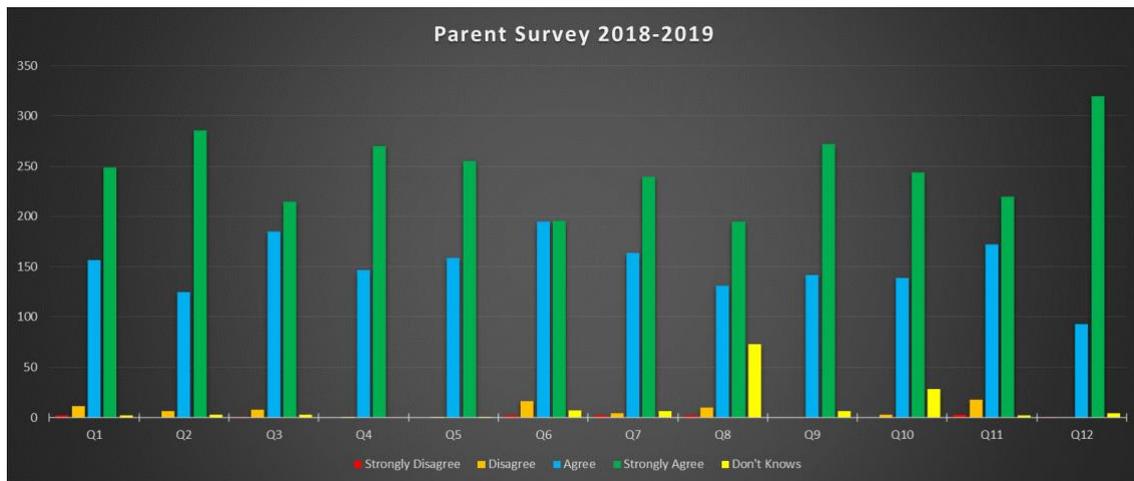

Thank you to all parents who responded to our annual parents' questionnaire over the past academic year. Response forms were made available at parent consultation meetings and 421 parents gave their views, although not all questions were answered by all parents. It is very helpful for us to know what parents feel about the school: what they value highly as well as what they would like to see change or improve.

This year's analysis shows once again that parents are generally very happy with the service that the school provides. It is particularly pleasing to note the question which drew the most positive response of all from parents is **Question 2: "My child feels safe in school"**: of the 334 responses, 329 indicated that parents 'strongly agreed' or 'agreed with this statement' and only 5 'disagreed', with 2 'don't know'. We always encourage parents and students to contact us if they don't feel safe and will follow up any questionnaires that leave a contact name.

The questions **"My child is well looked after at school"** and **"My child is well taught at school"** also received a very positive response, with only 1 parent indicating disagreement with these statement out of the parents who responded to this question.

On the other hand, the responses to **Questions 10 and 11** indicate that we could improve our communication with parents. As well as the reports that are issued three times a year and the annual parents' evenings, parents are encouraged to contact the Head of Year if they require more information. If our response to a concern proves to fall short of your expectations, please do contact me directly.

The questionnaire responses are summarised in the chart and table below.
